**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/24/2008 has been entered.

***Election/Restrictions***

2. Applicant's election without traverse of claims 1-11, 14-19, 22-25, 28, and 30 in the reply filed on 1/12/2009 is acknowledged.

***Claim Rejections - 35 USC § 112***

3. Claims 1-11, 14-19, 22-25, 28, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claims 1-11, 14-19, 22-25, 28, and 30 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: Applicant has elected the claims that are limitation representing the species that is best illustrated by Fig. 2. The drawing illustrates that the lower ring body is disposed directly below the periphery of the substrate and is directly below at least a portion of the ring member. This clarifies the language of the claims and

clears the vagueness of the essential relationship between the substrate, lower ring body, and ring member.

5. It should also be clarified that in claim 14, line 3 that it is the susceptor that is also made of an electrically conductive material.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sylvia R. MacArthur whose telephone number is 571-272-1438. The examiner can normally be reached on M-Th during the hours of 8 a.m. and 4:30 p.m.

7. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Parviz Hassanzadeh can be reached on 571-272-1435. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

8. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
